

I had a mediation session on the 2022 Spring equinox with Andrew Barnes, a man who when working as a sacred sexual teacher/healing caused harm. Safe Mediation held the most safe loving and supportive space for me while going through this difficult process. They were fair and balanced, and had everyone's best interest at heart. The experience was of love, honor and integrity for everyone concerned.

This wasn't the first experience of mediation I had gone through with Andrew, and the first one was challenging, so I was very nervous about this second attempt, with Safe Mediation this time. But I really didn't need to be. I felt heard, held, honored and respected, a far cry from the last experience. They made the mediation experience sacred and wonderful; they did an excellent job.

If you have been through anything like this, I would highly recommend their service. It really has taken my healing of this situation to a new level. I still feel there is more but that is from Andrew's side, and I do hope we have a final mediation, and I would of course want Denyse and Anaisa to hold the space. Thank you ladies from the bottom of my heart 🙏🌟🌟
